

The Day You Came Along

There was a time when everything went wrong
I used to walk around, singing that same old song
Now it's never been so good, the day's aren't quite so long
Since the day you came along

*Skies are blue, the sun is shinin'
My life has changed for the better, No more silly whinin'
My heart is filled w/ love and all the hate is gone
Since the day you came along*

I feel like everything is gonna be - A - OK
Every time I think of you, you know it just makes my day
Now I want to be the one to save you from any harm
just to hold you in my arms

*Skies are blue, the sun is shinin'
My life has changed for the better, No more silly whinin'
My heart is filled w/ love and all the hate is gone
Since the day you came along*

(Scat Singing & Dobro Solo)

*Skies are blue, the sun is shinin'
My life has changed for the better, No more silly whinin'
My heart is filled w/ love and all the hate is gone
Since the day you came along*

*My heart is filled w/ love and all the hate is gone...
Since the day that you came along*
